

The first time we called Mary Ellen we were nervous, this was a big step for us, a dream we had been chasing for some time. We organized a meeting to discuss selling our house and met a short time later. Mary Ellen clicked with our family within minutes, it was like she'd known us for years, conversation was easy and she was extremely knowledgeable in all things realestate. We talked about the market trends and other properties like ours. She informed us on what to expect and and how the selling process works. We talked staging and landscaping and all the particulars involved in selling your home. We joked and laughed and she somehow made an stressful time joyful. Mary Ellen was always prompt and courteous, knowledgeable and professional, whenever we posed questions she always had answers for us. I'm recommending Mary Ellen to all my friends and family and to anyone I know looking to sell their family home, she was fantastic and a wonderful person to be around!

Mary Ellen in the end made a huge impression on our little family and we will miss her dearly.
