

When we first started our home selling journey we reached out to Mary Ellen and she seemed to understand where we were in life and what we needed out of the sale of our home. She went WAY above and beyond what was required to sell a house with recommendations for painting and drywalling, storage and staging as well as landscaping solutions. These were just a few things she does for her clients.

Selling a home is such a stressful time and Mary Ellen kept us on track with everything we needed to accomplish in order to get the house on the market.

Let me tell you we are over the moon with the results!

Without Mary Ellen's knowledge of the market we know we wouldn't have had such amazing results!

A million thank you's Mary Ellen!

Highest of recommendations for anyone looking to navigate the Real Estate market!

Shannon & Allan
